

TOSCANE®

The sliding, folding roof of this sleek, modular terrace covering is operated using patented technology. Toscane was specially developed for large terraces of up to 6.5 m x 13 m with a single-fabric screen roof.

TOSCANE®

Sleek, modular terrace covering with a sliding, folding roof operated using patented technology.

Toscane is waterproof, windproof sun protection with an integrated drainage system.

Large dimensions, with a maximum width of 6,500 mm projection x 13,000 mm width with a single-fabric screen roof, are available, which makes this product perfect for use in the hotel and catering industry. Toscane can have an angle of inclination from 4° to 20°, depending on the span.

Moreover, different side variation integrations, including Fixscreen, glass walls and Loggia sliding panels, are possible. Various types of roof screens are available.

To create sustainable, soft lighting, Toscane is available with integrated LED lighting.
